### RCF HDL 20-A Line Array Speakers

**RCF HDL 20-A Overview.** The HDL20-A Active Line Array Module from RCF is designed for use in live sound reinforcement and installed situations. The system is powered from a 1400W Peak Power two-way digital amplifier (split 400W for the HF and 1000W for the LF), and sound is processed from a powerful DSP.

**Brand:** RCF

**Frequency Response:** 55 Hz-20 kHz

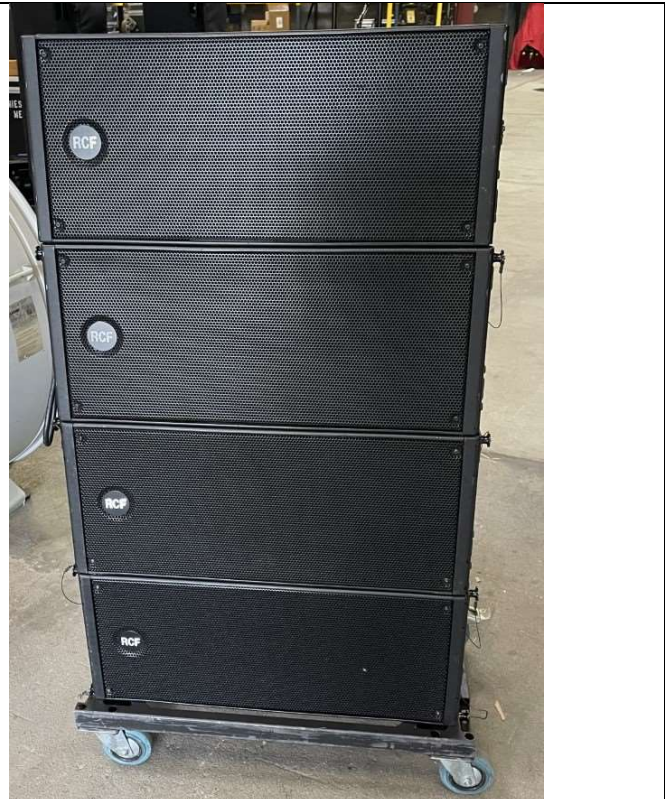

**Horizontal Coverage Angle:** 100°

**Maximum SPL:** 135 dB

**Vertical Coverage Angle:** 15°

The system features state of the art RCF transducers, two powerful 10" for a solid bass reproduction and a large format 3" voice coil compression driver to deliver vocal clarity and high definition with an incredible dynamic. **The large format compression driver RCF CD 850 is a key advantage of the HDL20-A.**

**HDL20-A** cabinets are molded on a polypropylene composite material designed to dampen down vibrations even at maximum volume settings. The module is equipped with two aluminum side handles with a rubber handgrip for portability. The system is equipped with a heavy-duty fly bar.

**We carry 16 RCFHDL 20's in our inventory.**
